REVISION #1: CONTRACT HAS BEEN EXTENDED THROUGH 3/20/01.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

Truck mounted platform bodies 14' long 96" wide with option for installation for a tandem axle cab & chassis (183" wb.120 CA) Model #SP-168-96 D & A Brand. \$1850.00/ea.

GENERAL SPECIFICATIONS

The platform body is to be a new unit of current model and of standard production designed. The body is to meet the following minimum specifications but is not limited as to features furnished by the manufacturer. The equipment is to have all standard features.

Equipment furnished by the State of Utah must meet current state and federal safety regulations.

Bid to state terms of warranty. To have minimum of 90 days.

Items Covered: All items and Workmanship.

Duration: 3 year limited warranty

CONSTRUCTION:

To have structural channel

- a. Long members of 7" x 3/16" x 9.8 lbs.
- b. X-bars of 4" x 3/16" x 5.4 lbs. On 12" centers.
- c. Front rails 3" x 5" x 1/4" angle with the 3" section as the lower flange and the five (5") as the vertical.

FLOOR:

- a. To have internal stake pockets approximately 1-5/8" x 3-5/8" on 24" centers.

LIGHTS:

Lights to include:

- S** I.C.C. three light cluster and side marker lights.
- S** All wiring to prefabricate seal system loom, with all wiring to be one piece run with no internal splices with connections only in the junction box.
- S** Truck-lite system for clearance and marker lights, shock mounted in rubber grommets.

HEADBOARD:

- S** To have a 40" high, 3/16" construction with the cutout for a punched screened window, 12" high x 24" wide, side gusseted in front of headboards not to protrude into load area. Channel flanged top rail.

Option: Light bars installed on headboard, which will make it level at front edges of the headboard above the cab. To be a 48" light bar, with four rotation lights and a white cargo light insert to the rear.

Option Price: \$324.50

Option: To have a metal frame work 2" x 2" x 3/16" square tubing, continuous welded to the headboard to support a Wanco early warner board (State supplied.) Tubing mounted vertical on each side of the early warner board so that it will bolt in the board approximately 17" above the light bar. Giving a 2" clearance from the top of the light bar to the early warner board. With a Wanco actuator model #100-656-001 (State supplied) to raise and lower the board.

Option Price: \$110.00

Option: Hitch plate to be fabricated and installed as shown on attached drawing, page 4. To include a Premier model - 150 (or approved equal) with 2-inch ball fabricated for 2 position, approximately 18" x 25" above the ground, safety chain loops and Pollack 11-721 trailer light receptacle properly wired.

Option Price: \$350.00
